

Building Systems Engineering at BREEN

Electrical Engineering

Electrical Engineering Services Include:

- Lighting
- Lighting Controls
- Power and Signal Systems
- High, Medium and Low Voltage Distribution Systems
- Special Power Systems
- Grounding
- Computer Data Distribution Systems
- Standby and Emergency Power Systems
- Telecommunications
- Fire and Security Systems
- State of California, Title – 24 Calculations and Analysis

Murray Blitz, P.E.

Senior Electrical Engineer, Federal Projects Coordinator

Murray is a licensed Electrical Engineer with over 50 years of professional engineering experience. His work includes exemplary project management of multi-disciplinary design teams, energy conservation and feasibility studies. His new construction design work includes commercial high rise apartments, offices, commercial and industrial buildings as well as infrastructure projects involving design of electrical power generation, lighting, fire protection and much more. He has provided extensive engineering services for the U.S. Government under security contracts.
